PERFORMANCE MEASURES CHECKLIST
State Form 56524 (5-18)
DEPARTMENT OF NATURAL RESOURCES
INDIANA LAKE MICHIGAN COASTAL GRANT PROGRAM

INDIANA
LAKE MICHIGAN
COASTAL PROGRAM

Please provide information for the last six (6) months. This checklist is to be completed and submitted every January and July along with the Quarterly Progress and Financial Report.

Fill in the quantity next to each question if it applies to your project activities over the six (6) month reporting period. If the activity does not apply to your project, please leave it as a zero.

Please submit this report for every project, every six (6) months, even if there is nothing to report. Many projects will not have anything to report until the end of the project.

*Training includes events for audiences that focus on technical subject matter more than those provided through educational activities.

Project Title: Click here to enter text.

Reporting Period: ☐ **January 1 – June 30**   ☐ **July 1 – December 31**   **Year:** Choose an item.

Government Coordinator and Decision-Making
Providing scientific and technical information and skill-building opportunities to individuals (usually government officials) who are responsible for making decisions that affect coastal resources.

· Number of training* events related to Government Coordination: _____
· Number of participants in training events related to Government Coordination: _____

Public Access
Providing for new and enhanced public access in the coastal region.

· Number of public access sites created through acquisition or easement: _____
· Number of existing public access sites enhanced: _____
· Number of training* events related to public access: _____
· Number of participants in training events related to Public Access: _____

Coastal Habitat
Protecting coastal habitat through acquisition or easement; restoration of coastal habitat

· Number of acres of Great Lake wetlands protected by acquisition or easement: _____
· Number of acres of Great Lake wetlands under restoration: _____
· Number of acres of beach and dune habitat protected by acquisition or easement: _____
· Number of acres of beach and dune habitat under restoration: _____

- Number of acres of nearshore habitat (intertidal, subtidal, submerged) protected by acquisition or easement: _____
- Number of acres of nearshore habitat (intertidal, subtidal, submerged) under restoration: _____
- Number of acres of other types of habitat protected by acquisition or easement: _____
- Number of acres of other types of habitat under restoration: _____
- Number of training* events related to Coastal Habitat: _____
- Number of participants in training events related to Coastal Habitat: _____

Coastal Hazards

Coastal communities implementing management practices to improve resilience and increase public awareness of coastal hazards (usually Planning/Coordination/Management or Education and Outreach project categories).

- Number of communities that completed a project to reduce future damage from hazards: _____
- Number of communities that completed a project to increase public awareness of hazards: _____
- Number of training* events related to Coastal Hazards: _____
- Number of participants in training events related to Coastal Hazards: _____

Coastal Dependent Uses and Community Development

Implementing sustainable coastal management practices and revitalizing port and waterfront areas (usually Planning/Coordination/Management project category).

- Number of coastal communities that developed or updated sustainable development ordinances, policies, and plans: _____
- Number of coastal communities that completed a project to implement a sustainable development plan: _____
- Number of coastal communities that developed or updated port or waterfront redevelopment plan: _____
- Number of coastal communities that developed or updated polluted runoff management ordinances, policies, and plans: _____
- Number of coastal communities that completed projects to implement polluted runoff management plans: _____
- Number of training* events related to Coastal Dependent Uses and Community Development: _____
- Number of participants in training events related to Coastal Dependent Uses and Community Development: _____
