## Instructions for Schedule IN-529R

A 529 college savings plan is a reference to Section 529 of the Internal Revenue Code. Contributions to this type of plan are made on behalf of a beneficiary, and are to be used to pay qualified higher education expenses. While there are many 529 college savings plans available both in Indiana and nation-wide, only contributions made to the *CollegeChoice 529 education savings plan* are eligible for an Indiana tax credit.

### Who must file Schedule IN-529R?

An owner of a *CollegeChoice 529 education savings plan* account who makes a non-qualified withdrawal during the year must repay all or a part of any Indiana tax credit allowed. The account owner must complete and enclose Schedule IN-529R with his or her Indiana income tax return (Forms IT-40 or IT-40PNR).

### Definitions

**Account owner.** The account owner is the individual or entity (such as a trust, estate, partnership, etc.) who has the right to select or change a beneficiary, and to control the distribution of the funds.

**Contribution.** A cash deposit made for the benefit of the account beneficiary.

**Qualified withdrawal.** This is a withdrawal or distribution from a CollegeChoice 529 education savings plan account that is made:

- to pay for qualified higher education expenses;
- because of the death or disability of an account beneficiary;
- because an account beneficiary received a scholarship that paid all or part of their qualified higher education expenses;
- because of a transfer of funds by the plan from one third party custodian to another.

**Non-qualified withdrawal.** This is a withdrawal or distribution from a CollegeChoice 529 education savings plan that is:

- not a qualified withdrawal;
- a withdrawal or distribution from an account that is closed within 12 months after the account is opened;
- a rollover distribution or transfer from the CollegeChoice 529 education savings plan to any other Code Sec. 529 plan or ABLE account.

### Column A

Enter the account number(s) from which you made a non-qualified withdrawal(s). Attach additional sheets if you made non-qualified withdrawals from more than eight accounts.

### Column B

Enter the net amount of non-qualified withdrawal(s) made during the year for each account listed in Column A.

**Example.** John opened an account for his son. He made two \$300 non-qualified withdrawals from this account during the year. He will enter \$600 in Column B.

### Column C

Multiply the amount in Column B by .20 (20 percent) and enter the result here.

**Example.** John multiplied the \$600 from Column B by .20; he will enter the \$120 result here.

### Column D

Enter the total amount of credits previously allowed for each designated account minus the total amount of credits previously recaptured for the account.

**Example.** John claimed a \$1,000 credit for the account listed in Column A; he will enter \$1,000 in Column D.

**Example.** John's mother made a \$400 contribution to the account listed in Column A, and claimed an \$80 credit based on that contribution. John will enter \$1,080 in Column D.

### Column E, Lines 1 - 8

Enter the smaller of the amount(s) listed in Columns C or D for each line.
