IT-2210A
State Form 48437
R5 / 8-06

Indiana Department of Revenue
**2006 Annualized Income Schedule for the
Underpayment of Estimated Tax by Individuals**
Attach to Form IT-40, IT-40PNR or IT-40P

Attachment
Sequence No. **07**

Your first name and last name

Your Social
Security Number

Spouse's first name and last name (if filing a joint return)

Spouse's Social
Security Number

Section I - Farmers and Fishermen Only - See Instructions

**Section II
Early Filers**

Check box if you filed
your 2006 tax return
and paid the total tax
due by January 31,
2007. ☐

	Annual Gross Income from All Sources		Two-thirds of Gross Income		Gross Income from Farming and Fishing
2005		X 66.7%=			
2006		X 66.7%=			

Section III - Required Annual Payment

A. 2006 tax	
B. 2006 credits (not including withholding credits or estimated tax)	
C. Subtract line B from line A	
D. Multiply line C by 90% (.90) (Farmers/fisherman multiply by .667, see instructions)	
E. 2006 withholding tax credit	
F. Subtract line E from line C - If less than \$400, STOP HERE! You do not owe a penalty	
G. Prior year's tax - (Read instructions)	
H. Minimum required annual payment - Enter the lesser of line D or line G (if G is N/A, enter amount from D)	

Section IV - STOP! Complete lines 1 through 12 for Columns A through D first.

	Column A 1-1 to 3-31	Column B 1-1 to 5-31	Column C 1-1 to 8-31	Column D 1-1 to 12-31
1. Indiana adjusted income for each period				
2. Annualization amounts	4.0	2.4	1.5	1.0
3. Annualized income: Multiply line 1 by line 2				
4. Exemptions: Line 14 of Form IT-40 or line 10 of Form IT-40PNR				
5. Annualized state taxable income (line 3 minus line 4)				
6. State income tax: Multiply line 5 by 3.4% (.034)				
7. County income tax: See instructions				
8. Annualized total tax: Add lines 6 and 7				
9. Credits: For each period , enter the sum of lines 25 through 29 of Form IT-40 or lines 21 through 25 of Form IT-40PNR.				
10. Annualized tax: Subtract line 9 from line 8. If less than zero, enter -0-				
11. Applicable installment percentages ...	.2 2 5	.4 5 0	.6 7 5	.9 0 0
12. Installment amount due: Multiply line 10 by line 11				

Schedule IT-2210A**Section IV cont'd...**

12a. Enter amounts carried from the front page, line 12

**Column A
1-1 to 3-31****Column B
1-1 to 5-31****Column C
1-1 to 8-31****Column D
1-1 to 12-31**12a 12a **STOP!** Complete lines 13 through 25 for each column, beginning with Column A, before going to the next column.

13. Amount from line 19 of all preceding columns (see instructions)

13 13

14. Total Tax: Subtract line 13 from line 12a. If less than zero, leave blank

14 14

15. Minimum tax due: Enter 25% (.25) of line H from Section III

15 15

16. Enter the amount from line 18 of the preceding column

16 16

17. Total minimum tax: Add lines 15 and 16

17 17

18. Subtract line 14 from line 17. If less than zero, leave blank

18 18

19. Actual estimated tax due: Enter the lesser of line 14 or line 17 here.

Carry to line 13 of the next column ...

19 19

20. Indiana state income tax withheld

20 20

21. Indiana county income tax withheld ..

21 21

22. Estimated tax payments

22 22

23. Total amount paid: Add lines 20 through 22

23 23

24. Overpayment: If line 23 is greater than line 19, enter the difference here

24 24

25. Underpayment: If line 19 is greater than line 23, enter the difference here

25 25

26. Add line 25, Columns A + B + C + D and enter the total here

26 27. Penalty due. Multiply line 26 by 10% (.10) and enter total here and on line 37 of Form IT-40 or line 33

of Form IT-40PNR

27 **Who Should File Schedule IT-2210A?**

Most taxpayers have state and county income taxes withheld from their income by their employers; therefore, the income taxes are usually paid in "even" amounts throughout the year. However, if you are self-employed, earn seasonal income, have income which does not have state and county income taxes withheld or expect to owe more than \$400 of state or county income taxes at the time you file your annual income tax return, you might be required to pay estimated taxes during the tax year. Either Schedule IT-2210 or Schedule IT-2210A are used to determine if you paid enough estimated taxes each period. If you did not, then you can figure the penalty you might owe for the underpayment of the estimated taxes.

Schedule IT-2210A or Schedule IT-2210: Which one to use...

You should use Schedule IT-2210A to: 1) figure your penalty, or 2) to show you paid enough estimated tax for a period if you received any seasonal income, such as Christmas tree sales, fireworks sales, etc., and you made any estimated tax payments that coincide with the receipt of that income. If the income you received (on which no Indiana income tax is withheld) is *evenly* distributed during the year, such as pension income, then you should file Schedule IT-2210 instead. See the line-by-line instructions for assistance.

Annualized Income Schedule for the Underpayment of Indiana Individual Estimated Tax: Line-by-line Instructions

Section I - Farmers and Fishermen

If at least two-thirds of your income for 2005 or 2006 was from farming or fishing, you have only one payment due date for 2006 estimated tax - January 16, 2007.

To meet an exception to the underpayment penalty for 2006, you may use option 1 or 2:

1. Pay all your estimated tax by January 16, 2007, and file your Form IT-40 by April 16, 2007, **OR**

2. File your Form IT-40 by March 1, 2007, and pay all the tax due. You are not required to make an estimated tax payment if you choose this second option. If you pay all the tax due, you will not be penalized for failure to pay estimated tax.

Section II - Early Filers

If you file your individual income tax return and pay the tax due by January 31, 2007, you will not be required to make a 4th installment estimated tax payment. For additional information see the instructions for line 22.

Section III - Required Annual Payments

Section III will determine if you should have paid estimated taxes during the year and the minimum amount required.

Line A: 2006 Tax: Enter the state adjusted income tax, county income tax and Indiana advance earned income credit payments from your individual income tax return: add lines 16, 17 and 20 from the IT-40 or lines 12, 13 and 16 from the IT-40PNR and enter the total here.

Line B: 2006 Credits: Enter the credits (except withholding and estimated tax payments) from your tax return. Add lines 25 through 29 from the IT-40 or lines 21 through 25 from the IT-40PNR and enter the total here.

Line D: To determine 90 percent (.90) of your total expected tax, multiply line C by 90 percent (.90). **Note:** If at least two-thirds of your gross income is from farming or fishing, multiply line D by 66 2/3 percent (.667).

Line E: 2006 Withholding: Your 2006 state and county income taxes withheld from your earnings should equal the combined lines 22 and 23 amounts from the IT-40 or the combined lines 18 and 19 from the IT-40PNR. Enter the total here.

Line F: Subtract line E from line C. If this amount is less than \$400, you **do not** owe a penalty. **Stop** here and **attach a copy of this schedule** to your individual income tax return.

Line G: Prior Year's Tax Exception: If you filed a 2005 IT-40 as a **full year resident**, add lines 16 and 17 (your income tax) and subtract the totals of lines 25 through 28 (your credits). Enter the result here. If you filed a 2005 IT-40PNR as a **full-year nonresident**, add lines 12 and 13 from that return and subtract the total of the lines 21 through 24 credits. Enter the result here. **Note: See Caution below.**

If you filed a 2005 IT-40PNR as a **part-year resident** of Indiana, you must figure the tax for that prior year on an annualized basis. You can accomplish this by multiplying the IT-40PNR line 1 income by 12 months and dividing the result by the number of months you were an Indiana resident. Then figure the state tax and county tax (if applicable) by subtracting your 2006 exemptions from the result and multiply that total by the tax rate(s) from your 2006 Indiana individual income tax return. See the example below. **Note: See Caution box below.**

Example:

- Kay moved to Indiana on Sept. 15, 2005, so she was a resident for 3.5 months.
- Her 2005 IT-40PNR line 1 income is \$10,000.
- Her 2006 total exemptions are \$3,500.
- The 2006 adjusted income tax rate is 3.4% (.034). Her 2006 county tax rate is 1% (for a 4.4% [.044] combined state and county tax rate).

Use Steps 1 through 4 below to figure the prior year's tax exception for line G of Kay's IT-2210A.

Step 1	\$ 10,000 (2005 Indiana income)	Step 3	\$ 34,286
	x 12 months		- \$ 3,500 (2006 exemptions)
	\$ 120,000 annualized income		\$ 30,786
Step 2	\$ 120,000 annualized income	Step 4	\$ 30,786 (2006 combined state
	÷ 3.5 months (2005 residency)		x 4.4% and county tax rate)
	\$ 34,286		\$ 1,355*

*The \$1,355 Step 4 total should be entered as an exception on line G of Kay's Schedule IT-2210A.

CAUTION: If your 2005 state taxable income (line 15 of Form IT-40 or line 11 of Form IT-40PNR) was more than \$150,000 (\$75,000 for married individuals filing separately), you must enter **110% of last year's tax** (instead of 100%) on line G.

Example: Chris and Kate's 2005 state taxable income from line 15 of Form IT-40 was \$158,000. They would take the following steps to arrive at the exception amount for line G:

- a) 2005 IT-40 total income tax (line 16 plus line 17) \$ 6,952
- b) 2005 IT-40 credits (lines 25, 26, 27 and 28) - 1,952
- c) Subtotal..... \$ 5,000
- d) Exception to the penalty percentage x 110%
- e) Amount for line G of Schedule IT-2210A \$ 5,500

Note: If Chris and Kate's 2005 state taxable income had been less than \$150,000, they would have entered \$5,000 instead of \$5,500 on Line G.

Line H: Minimum Required Annual Payment: Enter the lesser of line D or line G. If the line G entry is N/A, enter the amount from line D on this line. Continue to Section IV.

Section IV - Annualized Method STOP! Complete lines 1 through 25 for each column, beginning with Column A, before going to the next column. NOTE: Farmers/Fishermen should skip to the instructions following line 27.

Line 1: 2006 Indiana Adjusted Income: You must use the amount from Form IT-40, line 9 or from Form IT-40PNR, line 3, and figure how much of this income was earned during each period. Note that each column includes the income totals from all previous columns. See the example at the top of the next page.

Example: Jean and Jerry's 2006 Indiana adjusted income was figured using the following information:

Jean's wage income earned evenly throughout the year	\$ 30,000
Jerry's net income from fireworks sales earned in June and July	22,000
Total joint interest income (\$50 received monthly)	600
Renter's <i>deduction</i> for renting all year	<u>-2,500</u>
Indiana adjusted income for 2006	*\$ 50,100

They will have to figure how much wage and interest income was earned on a monthly basis, and how much renter's deduction is available for each month. Then they can figure the portion of their Indiana adjusted income for each of the time periods shown on line 1, Columns A - D.

*This \$50,100 amount will be entered on line 1, Column D of their Schedule IT-2210A.

Figure their Indiana adjusted income for:

- The period 1-1-06 through 3-31-06 (first 3 months (mos) of the year):
3 mos/12 mos (or .25) x \$30,000 wage = \$7,500
\$50 a month interest x 3 months = 150
3 mos/12 mos (or .25) x \$2,500 renter's *deduction* = -625
Line 1, Column A Indiana Adjusted Income = \$7,025
- The period 1-1-06 through 5-31-06 (first 5 months (mos) of the year):
5 mos/12 mos (or .42) x \$30,000 wage = \$12,600
\$50 a month interest x 5 months = 250
5 mos/12 mos (or .42) x \$2,500 renter's *deduction* = -1,050
Line 1, Column B Indiana Adjusted Income = \$11,800
- The period 1-1-06 through 8-31-06 (first 8 months (mos) of the year):
8 mos/12 mos (or .67) x \$30,000 wage = \$20,100
\$50 a month interest x 8 months = 400
Jerry's net income (all received in June and July) = 22,000
8 mos/12 mos (or .67) x \$2,500 renter's *deduction* = -1,675
Line 1, Column C Indiana Adjusted Income = \$40,825

Line 4: Exemptions: Enter the total amount of exemptions shown on line 14 of Form IT-40 or line 10 of Form IT-40PNR. Enter the total amount in each column.

Line 5: Annualized State Taxable Income: Subtract line 4 from line 3. If the difference is a negative number, put no entry on this line.

Line 7: County Income Tax: Multiply the amount on line 5 by your resident county tax rate from line 4 of your county tax schedule (CT-40 or CT-40PNR) **or** multiply the amount on line 5 that is principal employment income (less allowable exemptions) by the nonresident county tax rate from line 6 of your county tax schedule.

Line 9: Credits: Enter the applicable portion of credits from lines 25 through 29 of Form IT-40 or lines 21 through 25 of Form IT-40PNR for each period. Example: If you made a contribution to a college in July, this credit may be taken in Column C and Column D.

Line 13: Enter the amount (if any) from line 19 of all preceding columns. Example: To complete line 13, Column D, add line 19 amounts from Columns A, B and C. Enter this amount in Column D.

Line 15: Minimum Tax Due: Enter 25 percent (.25) of line H (from Section III) in each column.

Line 16: Tax Carryover: Enter the amount from line 18 of the preceding column. This line keeps track of the portion of your average tax that was not imposed for the previous period.

Line 19: Actual Estimated Tax Due: Enter the smaller amount from line 14 or line 17 on this line. This is the actual amount of estimated

tax you should have paid for this period. Also, enter this amount on line 13 of the next column. (Because this is subtracted in columns B, C, and D, you will not pay a penalty on the same underpayment twice.)

Line 20: Indiana State Tax Withheld: Divide the amount on line 22 of Form IT-40 or line 18 of Form IT-40PNR by four and enter the result in each column.

Note: If your withholding should change during the year, please show the increase or decrease in the period when the change occurred.

Line 21: Indiana County Tax Withheld: Divide the amount on line 23 of Form IT-40 or line 19 of Form IT-40PNR by four and enter the result in each column. See note above.

Line 22: 2006 Estimated Tax Payments: Enter the actual amount of estimated taxes paid timely by the 15th day following the close of the period. Payments made after the due dates are to be reported in the next column.

Note for Early Filers: If you file your individual income tax return and pay the *total* tax due by January 31, 2007, you will not be required to make a 4th installment estimated tax payment. You should include on line 22, Column D, the amount of tax you paid with your tax return (Form IT-40 or IT-40PNR) minus any household employment tax, use tax, advance earned income payments, and/or the amount shown on the return to be applied to your 2006 estimated tax account.

Line 24: Installment Period Overpayment: If the total payment (line 23) is more than the required payment due (line 19) for an installment period, enter the difference on this

line. This amount should then be added to line 22 in the next column **after** subtracting any under-payment(s) shown on line 25 in the previous column(s).

Example: Mike had a \$100 underpayment on line 25, Column A. He had a \$130 *overpayment* on line 24, Column B. The net overpayment from the first two installment periods is \$30 (\$130 - \$100). He'll add this net overpayment to any estimated tax paid for the third installment period on line 22, Column C.

Note: If, after subtracting any previous underpayments, this amount is *less than zero*, no overpayment will be available to carry over to the next installment period. Also, **do not** carry over a negative figure if this amount is less than zero. For example, a first period underpayment of \$80 plus a second period overpayment of \$50 results in a \$30 net underpayment. This amount is not to be used to decrease any credits for the next installment period.

Line 25: Underpayment: If line 23 is less than line 19, enter the difference on this line.

Line 26: Add lines 25A + 25B + 25C + 25D and enter the total here.

Line 27: Penalty for the underpayment of estimated tax: Multiply line 26 by 10 percent (.10). Enter the amount here and on line 37 of Form IT-40 or line 33 of Form IT-40PNR. Be sure to attach Schedule IT-2210A to your income tax return.

Special instructions for farmers/fishermen. Enter the amount from line H on line 1, Column D only. Complete Section IV by entering amounts on lines 1 through 27, Column D **only** (leave Columns A, B and C blank.)
