AUTHORIZATION FOR RELEASE OF INFORMATION

I hereby authorize, request and direct any person, firm, officer, corporation, association, organization or institution to release to the Professional Licensing Agency any files, documents, records or other information pertaining to the undersigned requested by the Agency, or any of their authorized representatives in connection with processing my application for a student permit to practice respiratory care.

I hereby release the aforementioned persons, firms, officers, corporations, associations, organizations and institutions from any liability with regard to such inspection or furnishing of any such information.

A photostatic copy of this authorization has the same force and effect as the original.

AFFIRMATION

I hereby swear or affirm, that I have read the above statements and agree to same.

Signature of applicant	Date signed (<i>month, day, year</i>)
------------------------	---

I understand the following as a holder of a student permit:

I shall meet in person at least one (1) time each working day with my supervising practitioner or a designated respiratory care practitioner to review the permit holder's clinical activities. The supervising practitioner or a designated respiratory care practitioner shall review and countersign the entries that the permit holder makes in the patient's medical record not more than seven (7) calendar days after the permit holder makes the entries.

I may only perform procedures that I have successfully completed and documented in the respiratory care program, AND that the Committee has approved and are on file at the Professional Licensing Agency.

The procedures permitted may be performed ONLY on adult patients who are not critical care patients and under the proximate supervision of a licensed respiratory care practitioner. This means that the student permit holder may not perform blood gas sampling and analysis, work in ICU, ER, or Pediatrics.

The student permit holder, working under the student permit, MAY NOT perform blood gas sampling and analysis, work in ICU, ER, and Pediatrics after graduation. The new graduate may work in the above-mentioned areas ONLY after applying for AND receiving a temporary permit, as described above.

A student permit expires on the earliest of the following:

- The date a student permit holder is issued a respiratory care license or temporary permit.
- The date the Committee disapproves the student permit holder's application for a license.
- The date the student permit holder ceases to be a student in good standing in a respiratory care program.
- Sixty (60) days after the date that the student permit holder graduates from a respiratory care program.
- The date that the student permit holder is notified that he / she failed the licensure examination.
- Two (2) years after the date of issuance.
