Place of employment
Address of employer (<i>number and street, city, state, and ZIP code</i>)
Telephone number of Design Professional ()

DESIGN PROFESSIONAL STATEMENT	
The residences at the following addresses are in compliance with the current rules of the Fire Prevention Building Safety Commission for individual residential structures as defined in IAC 470 3-1.1-29.5(e) through (i) and all items on the checklist contained in this form. If there are no residents in the home, I also affirm the residence is in compliance with the current rules of the Fire Prevention and Building Safety Commission for a "Class 2 structure" * as defined in IC 22-12-1-5.	
Address (<i>number and street, city, state, and ZIP code</i>)	County
Address (<i>number and street, city, state, and ZIP code</i>)	County
Address (<i>number and street, city, state, and ZIP code</i>)	County
Signature of Design Professional	Date (<i>month, day, year</i>)

* Class 2 structures are **NOT** one and the same as the class II child care home described in the licensed child care homes statute **IC 12-17.2-5-6.5**.

DESIGN PROFESSIONAL MUST INITIAL EACH ITEM.

- _____ Separate cooking facilities (kitchen) in each home (stove or microwave, refrigerator and sink). Bathroom sink cannot be used as kitchen sink.
- _____ Separate bathroom facilities in each home. Bathrooms must contain bathing facilities, either a tub or shower in each unit.
- _____ Separate outdoor fenced in play areas.
- _____ Two (2) separate exits per home (one must go directly outside and the second can go through a non-child care area such as a hallway, vestibule, porch, etc.; however, that area must be separated by two (2) hour fire walls).
- _____ Must have a two (2) hour fire wall between the homes. Fire wall is required to go from the dirt to the shingles, with fire dampers wherever there is duct work. The two (2) hour fire wall must go from the ground through the roof for a distance of thirty feet (30") OR to the roof with four (4) feet of fire resistant material on each side of where the wall terminates at the roof. Any openings or anything that penetrates through the wall has to be sealed or dampered.
- _____ If there is a door between the two (2) homes, the door frame and door must be fire rated for one and a half (1½) hours. Door must be closed at all times. A self closing device is required on fire doors. This door cannot be used as a throughway.
- _____ Licensed home that is on top of another licensed home (second story or basement) must have a two (2) hour fire resistive ceiling / floor assembly. This would include the floor of the upper level and the ceiling to the floor directly below.
- _____ Separate electrical panels for each home. Separate thermostat for heat in each home. Separate main gas and water shut-offs.
- _____ Smoke alarms are interconnected within each unit.

**Indiana Code 22-12
 FIRE SAFETY, BUILDING, AND EQUIPMENT LAWS: GENERAL ADMINISTRATION**

**IC 22-12-1-5
 "Class 2 structure"**

Sec. 5. (a) "Class 2 structure" means any part of the following:

(1) A building or structure that is intended to contain or contains only one (1) dwelling unit or two (2) dwelling units unless any part of the building or structure is regularly used as a Class 1 structure.

(2) An outbuilding for a structure described in subdivision (1), such as a garage, barn, or family swimming pool, unless any part of the outbuilding is regularly used as a Class 1 structure.

(b) Subsection (a) does not include a vehicular bridge.

As added by P.L.245-1987, SEC. 1.
