IMPORTANT NOTICE

Transfers:

Active 1977 Fund members can separate from one 1977 Fund participating employer to become employed with another participating 1977 Fund employer. Age limitations and physical and mental requirements for admission are waived if re-employment occurs within 180 days after separation. The 180-day limitation does not apply to 1977 Fund members who are reinstated with a police or fire department following a layoff for financial reasons.

Indiana law forbids the initial hiring of a person as a public safety officer if the person is forty (40) years of age or more for a police officer or forty (40) years of age or more for a firefighter at the time of hire.

[IC 36-8-8-7\(a\)](#) provides as follows:

Section 7. (a) Except as provided in subsections (d), (e), (f), (g), (h), (k), (l), and (m):

- (1) a police officer who is less than forty (40) years of age; or
- (2) a firefighter who is less than forty (40) years of age (SB185)

and who passes the baseline statewide physical and mental examinations required under section 19 of this chapter shall be a member of the 1977 Fund and is not a member of the 1925 Fund, the 1937 Fund, or the 1953 Fund.

[IC 36-8-3.5-12](#) Department members; appointment; qualifications; application; general aptitude test; ratings; eligibility list; vacancies; physical agility test; probation

Section 12. (a) Subject to [IC 36-8-4.7](#), to be appointed to the department, an applicant must be:

- (1) a citizen of the United States;
- (2) a high school graduate or equivalent; and
- (3) at least twenty-one (21) years of age, but under forty (40) years of age.

A former member of the 1977 Fund, who separated more than 180 days from a position covered by the 1977 Fund may be hired if they: (1) pass the statewide baseline physical and local board mental standards; and (2) will complete twenty (20) years of service by age 60 without meeting the maximum age limitations detailed above. In addition, [IC 36-8-4.7](#) provides a waiver for a person not more than forty (40) years and six (6) months of age who has completed twenty (20) years of military service who received or is eligible to receive an honorable discharge.

In addition, [IC 36-8-3-2\(b\)](#) provides that "this subsection does not apply to the appointment of a fire chief under a waiver under [IC 36-8-4-6\(c\)](#) or the appointment of a police chief under a waiver under [IC 36-8-4-6.5\(c\)](#). An individual may not be employed by a unit after May 31, 1985, as a member of the unit's fire department or as a member of the unit's police department unless the individual meets the conditions for membership in the 1977 fund.

GIVING AN INDIVIDUAL A CONDITIONAL OFFER OF EMPLOYMENT PRIOR TO AGE FORTY (40) FOR FIREFIGHTERS AND AGE FORTY (40) FOR POLICE OFFICERS DOES NOT CONSTITUTE COMPLIANCE WITH THESE STATUTES. THIS APPLICATION MUST BE RECEIVED AND FULLY APPROVED BY INPRS BEFORE THE APPLICANT MAY BE ACTUALLY HIRED BY THE DEPARTMENT. THE APPLICATION MUST BE RECEIVED BEFORE THE APPLICANT REACHES THE AGE OF FORTY (40) FOR A FIREFIGHTER AND THE AGE OF FORTY (40) FOR A POLICE OFFICER UNLESS COVERED UNDER STATUTORY EXCEPTIONS LISTED ABOVE.

[35 IAC 2-9-5](#) states "the local board shall submit certification of the baseline statewide within 6 months of the date of examination. If INPRS receives the certification of the results of the baseline statewide physical examination more than 6 months from the date of examination, the local board has not met the requirements for the transfer of the local board determination under this section."

GUIDELINES FOR PHYSICIANS

Name of applicant

This information is designed to help physicians complete the following forms. The medical conditions outlined in these forms may impact on an individual's ability to perform the essential functions of the job for a first-class police officer or firefighter. The application of these guidelines requires a careful consideration of the job duties of a police officer or firefighter and the medical conditions that might affect a person's capability to conduct those duties.

Firefighting and emergency response are very difficult jobs. People in these jobs must perform functions that are physically and psychologically demanding. These functions must often be performed under very difficult conditions. Studies have shown that firefighting and police functions at times require working at near maximal heart rates for prolonged periods of time. Heavy protective equipment (including respirators) and the heat from fire also contribute to the physical load that firefighters must endure.

The available health data on firefighters and police officers is limited. Given the delay between exposure and onset of many occupational illnesses (i.e., latency), current or past health studies of firefighters and police officers may not reflect future health risks. However, it appears that firefighters and police officers have increased risk for injuries, pulmonary disease, cardiovascular disease, cancer, and noise-induced hearing loss. The increased risk for injuries is expected given the demands and circumstances for this work.
