### **Line-by-Line Instructions**

#### Do You Qualify for the Deduction?

You may qualify for the deduction if you meet **both** of the following requirements:

- you retired on disability before December 31 of the tax year for which you are claiming the deduction; and
- you were permanently and totally disabled when you retired.

If you meet these requirements, you may be eligible to subtract up to \$5,200 a year of your disability payments from your gross income. The amount you subtract is limited to the amount of disability pay you actually received or \$100 a week, whichever is less, and may have to be reduced by part of your federal adjusted gross income.

Your spouse may also be eligible to subtract up to \$5,200 of disability payments if you file a joint return and your spouse meets all the above requirements.

**Note:** In no case may the total deduction be more than \$10,400 on a joint return.

#### **General Instructions**

Enter your name(s), social security number(s) and, if applicable, the date you retired.

On a joint return, if both spouses qualify for the disability retirement deduction, two Physician's Statements must be attached. Use only one Schedule IT-2440 to calculate the deduction.

**Line 1 -** Enter the amount received during the taxable year through an accident and health plan for personal injuries or sickness. Use line 1A for yourself and line 1B for your spouse.

**Line 3 -** The amount you can deduct is limited to the disability income you received each week or \$100 per week, whichever is less.

If you did not receive your disability pay each *week*, you will have to figure your weekly pay (see Table A).

| Table A - How to figure your weekly pay: |   |  |  |  |  |
|--|---|--|--|--|--|
| If you were paid:                        | Figure your weekly pay by:                                  |  |  |  |  |
| Every 2 weeks                            | . Divide your gross pay by 2                                |  |  |  |  |
| Twice a month                            | . Multiply your gross pay by 24 and divide the result by 52 |  |  |  |  |
| Once a month                             | . Multiply your gross pay by 12 and divide the result by 52 |  |  |  |  |
| Any other way                            | . Divide your gross yearly pay by                           |  |  |  |  |
|  | 52  |  |  |  |  |

**Note:** If you did not receive disability income for the whole year, use the actual amount of weeks/months.

**Example:** Jim received disability income of \$130 a week for six weeks. He should complete the worksheet below, entering the \$130 amount on line a.

#### **Instructions for Physician's Statement**

A person is permanently and totally disabled when:

- He or she cannot engage in any substantial gainful activity because of a physical or mental condition; and
- A physician determines that the disability

  (a) has lasted or can be expected to last continuously for at least a year, or
  - (b) can be expected to result in death.
