If line 23 is a negative figure, this is the NOL available to carry back or carry forward against modified Indiana adjusted gross income. To claim this deduction, you must apply the same carryback/carryover treatment as used for federal income tax purposes. Continue by entering line 23 loss figure in Part 2, column (4) for the taxable period to which the NOL deduction is initially applied.

If an Indiana net operating loss is computed and there is no attending federal NOL, check this box to relinquish the two-, three-, or five-year NOL carryback provision for Indiana income tax purposes:

Election to Waive Carryback of the Indiana Net Operating Loss Deduction

**PART 2 — Computation of Indiana Net Operating Loss Deduction and Carryover**

Make required entries, as specified to compute the amount of Indiana modified adjusted gross income used. **Add all entries across columns 2, 3, & 4 for each tax year; enter result in column 5.** If result is a loss, also enter loss in column 4 for the next carryover year.

**Carryover:** Update this schedule for each tax year. Claim the remaining NOL from column 4 as a positive deduction on your return.

**Note:** The carryback period of Indiana net operating losses is the same time as the carryback of those net operating losses for federal tax purposes, except that net operating losses for certain small businesses can be carried back only two years for Indiana, as opposed to five years for federal tax purposes.
