**NOTES:**

- The purpose of this form is to identify and summarize any AOS that you are submitting with your air permit application. This form is optional.
- Detailed instructions for this form are on the Air Permit Application Forms website.
- All information submitted to IDEM will be made available to the public unless it is submitted under a claim of confidentiality. Claims of confidentiality must be made at the time the information is submitted to IDEM, and must follow the requirements set out in 326 IAC 17.1-4-1. Failure to follow these requirements exactly will result in your information becoming a public record, available for public inspection.

**Alternative Operating Scenario Summary**

This table identifies and summarize each alternative operating scenario (AOS) that you are submitting with your air permit application. Submit a copy of this form for each AOS at the source.

<b>1. Process:</b>		<b>2. Unit ID:</b>	
<b>3. Stack / Vent ID:</b>		<b>4. AOS ID:</b>	
<b>5. Application Form Reference:</b> Identify each IDEM, application form as well as the specific item number to which the alternative operating scenario (AOS) applies.			
<b>6. Explanation:</b> Provide a brief explanation of why the operation should be considered an alternative operating scenario rather than a new process.			
<b>7. AOS Description:</b> Provide a brief description of the alternative operating scenario (AOS) in terms of process information, any control equipment to be utilized, methods to be used to demonstrate compliance, and the resulting emissions under AOS conditions.			
<b>8. Additional Calculations / Diagrams:</b> Use the space provided to include additional calculations and/or diagrams, if applicable.
