2. WATER QUALITY PROBLEM (*continued*):

E. PROJECT APPROACH TO SOLVING THE PROBLEM

1. APPROACH: *Provide a general overview of the proposed project. Your overview should include a description of the goals of the project (what you hope to achieve), and how the project will result in improved water quality. Discuss who will be included in planning and decision making. If this project is implementing a Watershed Management Plan (WMP), identify the critical areas where the best management practices (BMPs) will be implemented, and provide an estimate of the pollutant load reductions expected. If this project is to continue implementing a WMP, describe the progress made so far toward meeting the goals of the WMP.*
