

GASOLINE TRANSPORT INSPECTION

326 IAC 8-4-7 & 8-4-9

State Form 49363 (R / 4-09)

INDIANA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT

OFFICE OF AIR QUALITY (OAQ)

ATTACHED FORMS: <input type="checkbox"/> General <input type="checkbox"/> Stage I <input type="checkbox"/> Stage II					
Station ID	Station name	Date (month, day, year)			
Name of transport company		Company telephone number			
Address of company (number and street, city, state, and ZIP code)					
Name of driver		Name of company contact person			
Tractor Identification number	Tractor license number	Name of state			
Trailer Identification number	Trailer license number	Trailer serial number	Name of state		
Are pressure - vacuum test results available? <input type="checkbox"/> Yes <input type="checkbox"/> No		Are the test results satisfactory? <input type="checkbox"/> Yes <input type="checkbox"/> No			
Are vapor hoses properly attached? <input type="checkbox"/> Yes <input type="checkbox"/> No		Is the drop hose properly attached? <input type="checkbox"/> Yes <input type="checkbox"/> No		Are the tanker lids closed? <input type="checkbox"/> Yes <input type="checkbox"/> No	
Type of gasoline unloaded: Regular _____ Midgrade _____ Premium _____			Was gasoline spilled? <input type="checkbox"/> Yes <input type="checkbox"/> No		
If yes, estimate spillage and describe cleanup:					
Describe any detectable leaks (Pressure vacuum valve, cracked hose, etc.):					
<input type="checkbox"/> NO VIOLATIONS: At the time of inspection, no violations of 326 IAC 8-4-7 or 8-4-9 were observed.					
<input type="checkbox"/> FAILURE TO PROVIDE TEST RESULTS: The observed violation of 326 IAC 8-4-9 is the failure to provide results of successfully passed pressure and vacuum tests. In the future, please ensure that the aforementioned test results are available for inspector review during an inspection. The test results must accompany the corresponding gasoline transport.					
<input type="checkbox"/> IMPROPERLY ATTACHED AND/OR USED HOSES: The observed violation(s) of 326 IAC 8-4-7 is the failure to properly attach and/or use liquid gasoline hoses and/or vapor recovery hoses. In the future, please attach and/or use these hoses in a manner consistent with 326 IAC 8-4-7. An example of such a violation would be attaching hoses to the transport in a manner which results in gasoline spillage or vapors.					
<input type="checkbox"/> OPEN TANKER LIDS: The observed violation(s) of 326 IAC 8-4-7 is the failure to close lids, hatches, and/or compartments on the gasoline transport thereby possibly allowing the release of gasoline vapors to the atmosphere. In the future, please ensure that all lids, compartments, and/or hatches are closed and, thus, form a leak-tight transport.					
<input type="checkbox"/> DETECTABLE LEAKS: The observed violation of 326 IAC 8-4-7 is the presence of detectable gasoline vapor leaks. In the future, please ensure that detectable gasoline vapor leaks are not present in the vapor recovery system while unloading gasoline.					
<input type="checkbox"/> FAILURE TO USE THE STAGE I SYSTEM: The observed violation of 326 IAC 8-4-7 is the failure to use the Stage I system.					
<input type="checkbox"/> FUTURE INVESTIGATION NECESSARY TO DETERMINE COMPLIANCE					
<input type="checkbox"/> WARNING LETTER/VIOLATION LETTER FORTHCOMING					
<input type="checkbox"/> OTHER - SEE COMMENTS PORTION OF GENERAL INSPECTION FORM FOR MORE DETAILS					
<input type="checkbox"/> OAQ will proceed with enforcement action. You will be issued a formal notice of violation informing you of how to proceed in resolving this matter.
